It has been a tradition at Ridge School to set aside some time for parents to visit classrooms during American Education Week. This year, parents are invited to visit Ridge on Wednesday, November 18th. You will be asked to show ID and sign in. Please keep in mind that we are trying to make this a normal day of instruction so you can see our Ridge teachers and students at work. With that in mind, please observe the following rules:

- 1. **Do not bring young children**, as this is very distracting to the students in the class.*
- 2. Limit your time in the classroom so that we do not have large groups of parents at the same time. (Please don't plan on spending the entire morning in your child's class, which would be a distraction for your child.)*
- 3. The taking of still **pictures and video is not allowed** during classroom visits.*
- 4. Cell phones must be **turned off** while in the classroom.*
- 5. Please do not carry on conversations with other parents during the class unless invited to do so by the classroom teacher.*

Friday, November 20: First Grade Colonial Craft Day- morning only

First graders participate in several hands-on colonial activities as a culmination of their social studies unit. Parents are invited to volunteer.
