

Helping Hands

The Ridge School HSA is looking for new recruits and former volunteers to join our popular *Helping Hands* program. This program has been running at our school and throughout the United States for more than 20 years.

The purpose of this program is to provide a safe haven for a Ridge child in need during the time of walking to and from school. As a volunteer, you might see situations such as anything from caring for a scraped knee to helping a lost child. Each family in the program will display a cardboard placard in a prominent position in a window or door that can be seen from the street. The placard shows a picture of two hands, which signifies a family's willingness to help a child in need. If you are usually home when children are walking to or from school and are willing to help a child in need, please volunteer.

We hope you are able to join the many Ridge School families who are already part of the *Helping Hands* program. If you are interested, please complete the form below and return to school. There are never enough volunteers when it comes to the safety of our children.

Thank you.
